Full-stack developer with a flair for graphic design. I thrive on crafting web experiences that are not only visually stunning but also highly functional and user-friendly. Currently exploring Generative AI to blend creativity with innovation.

EDUCATION

BTECH in Artificial Intelligence and Data Science	Jan 2021 - Present
DY PATIL COLLEGE OF ENGINEERING	GPA: GPA: 8.33
Senior Secondary	Jan 2019 - Jan 2020
DPSG	GPA: GPA: 9.44

WORK EXPERIENCE

Generative Ai Intern	Aug 2024 - Sep 2024
SmartBridge	PUNE
- Gained knowledge in AI concepts and applied them in practical settings. - Utilised cloud-based AI tools and technologies to enhance project efficiency. - Enhanced understanding of AI workflows and automation processes.	
Web development Intern	Dec 2023 - Mar 2024
The Latest Buzz	Delhi
- Developed and maintained the front end of The Latest Buzz's website and web application, enhancing user experience and interface functionality. - Collaborated effectively with cross-functional teams. - Implemented new features and resolved technical issues, improving platform stability and user engagement. - Consistently engaged in professional development, staying updated with industry trends, and integrating new technologies to keep the product competitive and innovative.	

PROJECTS

QueryMentor

- Engineered an AI-driven interview preparation platform utilising Gemini AI for intelligent question generation and performance analysis.
- Enhanced interview question generation by utilising Gemini1 AI, resulting in more dynamic and relevant questions, improving user engagement.
- Developed an automated feedback system to deliver correct answers, dynamic scoring, and AI-generated insights for personalised improvement.

Talk2Data

- Architected a conversational AI system using LangChain and Groq's LLM to enable natural language interaction with SQL databases, allowing users to query data without SQL expertise.
- Implemented a zero-shot reasoning agent to dynamically interpret user queries, generate SQL commands, and retrieve accurate results from databases in real time.
- Integrated SQLite3 and Mysql databases using SQLAlchemy, providing flexibility for users to connect to local or remote databases seamlessly.

Serverless Blog Generator using AWS Bedrock & Lambda

- Developed a fully serverless blog generation system using AWS Bedrock, invoking LLMS to generate SEO-optimised blog content on demand.
- Integrated AWS Lambda, API Gateway, and S3 to efficiently orchestrate content generation, storage, and API access.
- Monitored and debugged workflows using CloudWatch Logs, ensuring reliable and scalable performance.

SKILLS

Languages: Python, JavaScript, Java, TypeScript
Frontend: React.js, Next.js, HTML, CSS, Three.js, GSAP, Streamlit
Backend: Node.js, Express.js, FastAPI
AI/ML & GenAI: OpenAI, LLaMA2, Gemini, Groq, LangChain, Hugging Face, TensorFlow, NLP, Vector Embeddings, Neural Networks
Databases: MySQL, PostgreSQL, SQL, ChromaDB
DevOps & Deployment: Docker, Kubernetes, GitHub CI/CD, AWS, Hugging Face Spaces
Messaging & Tools: Kafka, Redis
Concepts: DSA, DBMS, OS, OOPS, Microservices

CERTIFICATIONS

Complete Generative Ai Course with Langchain and Huggingface by udemy
Full Stack Web Development Course 0-100 by 100xDevs
